

ROI Training

# Anthropic Models on Amazon Bedrock

Module 0:

Course Introduction

---

The following course materials are copyright protected materials. They may not be reproduced or distributed and may only be used by students attending the *Anthropic Models on Amazon Bedrock* course.

# Welcome!

- ROI leads the industry in designing and delivering customized technology and management training solutions
- Meet your instructor
  - Name
  - Background
  - Contact info
- Let's get started!

# Course Objectives

In this course, you will:

- Differentiate between Anthropic models (Opus, Sonnet, Haiku)
- Monitor Anthropic model token consumption and latency
- Integrate AWS services with Anthropic Models
- Leverage programmatic Generative AI with Claude Code
- Build an application powered by Amazon Bedrock and Claude Sonnet

# Course Contents

---

Module 1: Foundations: Generative AI and Claude Models on AWS

Module 2: Claude API Fundamentals and Prompt Engineering

Module 3: Data Preparation and Knowledge Bases for RAG

Module 4: Tool Use and Agentic Workflows with Claude

Module 5: Security, Governance, and Guardrails

Module 6: Practical Architecture and Deployment Patterns

Module 7: Claude Code: Building Bedrock Applications

Module 8: Amazon Kiro and Enterprise Code Generation

# Course Prerequisites

**To get the most from this course, you should have:**

- Basic familiarity with AWS console and core services (S3, Lambda, IAM)
- Understanding of REST APIs and JSON
- Programming experience in Python or JavaScript (recommended but not required)
- Command line/terminal comfort for Claude Code section

# Hands-On Learning

Throughout this course, you will experience:

- **Live demonstrations**

Instructor-led walkthroughs of key concepts and AWS services

- **Hands-on labs**

Practical exercises where you'll build and deploy AI solutions

- **Interactive activities**

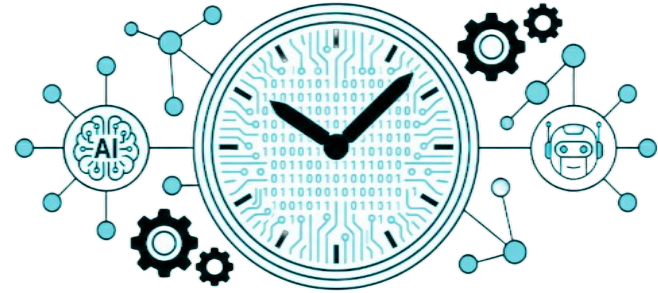

Group discussions and problem-solving scenarios

- **Real-world use cases**

Enterprise examples and architecture patterns

# Course Schedule

- Start of class: \_\_\_\_\_
- Break: \_\_\_\_\_
- Lunch: \_\_\_\_\_
- Resume: \_\_\_\_\_
- Break: \_\_\_\_\_
- Class ends: \_\_\_\_\_

# Lab Environment

## To complete the course labs:

- You will use your real environment and not a canned virtual machine
- You are provided with a Claude Code account for the duration of the course
- Access to Amazon Bedrock with Anthropic models is enabled
- Access to a Git repo containing all lab files and instructions is provided

# Let's Get Started!
